

Claims:

- 1-3. (canceled)
4. (currently amended) A bodywork element including a fastening projection for a piece ~~for placing~~ placed against ~~said the~~ bodywork element, wherein ~~said the~~ projection is shaped so that when the piece is in position on the bodywork element, the projection extends parallel to a fastening tab belonging to ~~said the~~ piece ~~for placing~~.
5. (currently amended) A bodywork element according to claim 4, including a plurality of projections ~~enabling the piece for placing to be positioned accurately~~.
- 6-7. (canceled)
8. (new) A bodywork element according to claim 4, wherein the bodywork element comprises a bumper skin.
9. (new) The bodywork element of claim 4, wherein the bodywork element and the piece form an assembly by melting together the projection of the bodywork element and the tab of the piece.
10. (new) The bodywork element of claim 9, wherein the projection is longer than the tab of the piece.
11. (new) The bodywork element of claim 9, wherein the piece includes a sensor support.
